Who does it practise?

Askora is one of the companies that practises the use of green products.

Where?

Askora carries out this practise in some schools and other places. One example is our school. Apart from here, it is also carried out in other parts of our area. Askora also render

services in Gipuzkoa, Bizkaia, Navarra, Araba and La Rioja.

The central office is in San Sebastian, Gipuzkoa.

When?

Askora service is always working, but our school only has few highlight days in which we eat ecological or local food.

They started working in 2015, few years ago.

Why do you think that this best practice can be exported ?

This company is committed with local producers so people gets interested. Despite being interested, local products are an advantage for our environment because they do not have to use much transport. So, using local products is a way to pollute less. Because of that, this company can be exported.

Describe the activity

Askora is a group that is committed with local lands, products and producers. The forty per cent of the menus contain local and ecological products. The days that the menu is not highlighted the food is not local or ecological.
