

Let's talk about: "SUSTAINABILITY!"

Through games, drawings and lapbooks students of the Low Secondary School have started the new scholastic year by talking and discussing with 10 years old children about "*SUSTAINABILITY*" !

They have introduced the pupils of the primary school to the importance of doing actions that "sustain" the world and they have explained the meaning of the "17 GOALS" to be reached within 2030!

By playing both memory games and "virtual on line games" the "*GOALS*" have become something more real !

At the end of the meeting one question has been done by the young children: "How can we sustain the world?"

The answer of the older students has been: " **Let's start to respect NATURE!**"
