

# **“G.R.E.E.N in Europe” surfs on the webpages of Taranto’s newspapers**

Today on the webpage of one of our local newspapers it has been posted an interesting article concerning our project. Our two years teaching and learning experiences; the exchange of “best practices” on eco-sustainable themes, lived also through the mobilities, have been shared with a community of people that needs to be encouraged in changing their own lifestyle. Thanks to this project Taranto’s citizenship is considering how important is to grow up in new generations the awareness in protecting and respecting the environment since the youngest age of its own population. For Taranto it’s just a starting point!

Here the link to the article

## **A PACKAGING... EXPERIENCE!**

One of the classes of our 10 years old students of the primary school today have worked together with a group of students of the low secondary school (13 years old) to realize something very interesting!

**The “packaging” of a product!**

The children of the primary school, after having studied the “process” that leads to the biological production of a typical apulien food product, have thought how to “package” it !

They made a lot of drafts and written some procedures underling the importance of using “recycled” materials!

At the end, with the help of the low secondary school students, their tutor during the activity, they made a lot of different “packaging” proving their “entrepreneurial skills”!

The experience has been great!

And now... we are starting working on the “*advertising poster*”!

---

## CREATIVE ... .ADVERTISING IN ACTION

Thanks to our Erasmus+ project, students of the Primary School are exploring with great interest the “secrets” of the advertising process!

With the help of one “expert” in “Communication and marketing”, mother of one of the pupil involved in the project, the young 10 years old learners in Taranto are testing their “creative” abilities in producing “storylines” and “storyboards” . It’s a wonderful experience!

Meeting the “expert”!

Working in “group” ! Be cooperative , to be “creative”!

From the “storyline” to the “storyboard”

TO BE CONTINUED.....

Here is the link to the whole learning experience!

## TARANTO, A POSSIBLE URBAN RENEWAL

10 years old students since last year have been discussing with their teachers about the possible “reconversion” of their town. What can we do in order to reach the 11th goal indicated in the Agenda 2030?

They started with these drawings...and we hope that one of their dreams can become true soon!

# Let's talk about: "SUSTAINABILITY!"

Through games, drawings and lapbooks students of the Low Secondary School have started the new scholastic year by talking and discussing with 10 years old children about "*SUSTAINABILITY*" !

They have introduced the pupils of the primary school to the importance of doing actions that "sustain" the world and they have explained the meaning of the "17 GOALS" to be reached within 2030!

By playing both memory games and "virtual on line games" the "*GOALS*" have become something more real !

At the end of the meeting one question has been done by the young children: "How can we sustain the world?"

The answer of the older students has been: " **Let's start to respect NATURE!**"
