Big Pit National Coal Museum

The [Big Pit National Coal Museum](#) is an excellent example of the recovery of abandoned industrial areas. Thanks to this museum the workers of this ancient coal mine, now closed for years, have been able to keep a decent work.

Subjects of the Sustainability: 8-10-11

The museum provides an underground tour. The route runs 100 meters underground. Only by visiting these places is it possible to understand how the life of coal miners was.

An award-winning national museum that still retains many features of its former life as a coal mine, standing high on the heather-clad moors of Blaenafon, the tunnels and buildings

that once echoed to the sound of the miners now enjoy the sound of the footsteps and chatter of visitors from all over the world.
